

Probus Neutral Bay Guest Speaker – Tues. 8th OCT. 2024
ALBERTO MIGLIUCCI – A Geologist and Investment Banker
Extraordinaire

"From Rocks to Riches: My View on Gold, Nickel, and the Glittering World of Billionaires."

Introduction – It has been said that “When you look at a map of Australia you are looking at the Periodic Table”. Australia is home to some of the largest recoverable critical mineral deposits on earth..... and the envy of the rest of the world.
At the same time, an incredible opportunity for Australian industries, investors and entrepreneurs.

Our Guest Speaker - ALBERTO MIGLIUCCI

Alberto Migliucci is an investment banker and geologist with more than 30 years of experience in the energy, mining, and natural resources sectors. As an expert in mergers and acquisitions, capital raising, structured and project finance, Initial Public Offerings, investments, and advisory services within natural resources, he has led numerous landmark transactions and according to Forbes magazine (2019) "*Alberto Migliucci has facilitated over US\$150 billion in commodities deals*".

He provides advisory services to mining and energy companies, as well as prominent figures / billionaires in the mining industry, on commodities and mining investments.

He lives in Mosman and is a personal friend of our President, Reg Richardson.

[PTO](#)

His Presentation – He will reflect on his recent work in the mining and investment world, drawing from his experience as both a geologist and investment banker. His insights will cover such topics as:

- Australia’s Mining Magnates: What are the billionaires digging into now?
- King Coal: Yet to be dethroned.
- Nickel: The metal powering the future.
- Gold: It cannot be replicated or substituted.
- The future energy metals like nickel, lithium, cobalt, copper and vanadium.

A little more on Alberto

As an investment banker, Alberto served as Managing Director at Credit Suisse in Singapore, where he led the bank's Mining and Energy Department for Asia. Forbes magazine in 2015 quoted: *"Alberto has a unique background combining geology and investment banking... he was Credit Suisse's managing director and head of metals and mining for Asia from 2008 to 2013. While in that position, Credit Suisse led all its competitors as the number one dealmaker in metals and mining during that period."*

Alberto also held senior banking roles at Standard Bank, where he led the bank's energy and mining business in Asia, as well as at The Sumitomo Bank of Japan, Société Générale in Hong Kong, and Westpac Banking Corporation in Australia.

Prior to his banking career, Alberto worked as a geologist.

Alberto was awarded a Bachelor Science (Geology) degree with First Class Honours at the University of New South Wales; and a Master of Applied Finance degree at Macquarie University.

PHEW!!
